Bug Report

StyleMate Website e-commerce platform

Bug Summary:

The "Create Account" button is not functioning, preventing users from creating new accounts.

Steps to Reproduce:

1. Open the application or navigate to the registration page (provide URL if applicable).
2. Fill in the required details in the registration form (e.g., Name, Email, Password, etc.).
   a. | firstname | lastname | email | password |
   b. | first1 | last1 | emailExample1@gmail.com | d*^*a231s |
   c. | first2 | last2 | emailExample2@gmail.com | e*^*b231s |
   d. | first3 | last3 | emailExample3@gmail.com | f*^*c231s |
   e. | firstname | lastname | firstlast@gmail.com | pass123 |
3. Click on the "Create Account" button.

Expected Behavior:

The system should create a new account and display a success message or redirect the user to the dashboard/homepage.

Actual Behavior:

Nothing happens when the "Create Account" button is clicked. No success message or redirection occurs.

Environment Details:

- **Platform:** (e.g., Web)
- **Browser/Version:** (e.g., Chrome 118.0.1)
- **Device/OS:** (e.g., Windows 10)
- **Application Version:** (e.g., 2.1.0)
- **Network Type:** (e.g., Wi-Fi, Mobile Data)

Severity/Priority:

- **Severity:** Critical (Users cannot register accounts, impacting core functionality.)
- **Priority:** High
